

Issued 29 November 2007
Valid from 1 January 2008

Fees for Issuers

Fee for Admission to Trading

The fee is collected as follows: 75% of the fee is collected when an application is received and is non-refundable. The remaining 25% is due when the process is completed, with a surcharge if necessary.

The first 75% of the fee is collected when an application is received, will become null and void if more than 3 months elapse from the time OMX ICE sends comments to the supervising member, until OMX ICE receives a revised version of the prospectus.

The fees are minimum fees. If the reviewing of a prospectus requires greater amount of work than can generally be expected, a surcharge is added to the fee. The guidelines for the application of such a surcharge are presented to the issuer and the supervising member in a meeting prior to the start of the formal process.

Annual fee

The annual fee is collected quarterly. The variable part of the annual fee is calculated monthly from the market value at the end of each month and the weight of each month is 1/12th of the fee (i.e. 1/12 of 0.002% or 0.001%).

A fixed charge plus the variable fee is collected for the month of admission to trading.
Only the fixed charge is collected for the month of removal from trading.
